ABOUT COGNA EDUCAÇÃO

Cogna Educação is one of the largest private educational organizations in the world. In the market for more than 55 years, the Company operates in all Brazilian states and different education segments, with a full platform of services and content offered in different business models. At the end of 2Q24, Cogna had 1,138 thousand On-Campus and Digital Higher Education students in Kroton segment and more than 85 thousand Post-graduate students in the Platos segment. In Basic Education, Vasta ended the quarter with 1,915 thousand students provided by approximately 6.4 thousand member schools, using core and complementary content solutions.

NOTE

The Company's operating and financial information for the first semester of 2024, unless otherwise indicated, is presented based on consolidated figures, including continued and discontinued operations, in thousands of reais, in accordance with the Brazilian corporate law and practices adopted in Brazil, already in compliance with the International Financial Reporting Standards (IFRS), whose comparisons are based on the same period in 2023. With the aim of aiding users in reading this information, below is the combined result of the continued and discontinued operation:

MESSAGE FROM MANAGEMENT

Cogna:

The quarterly results show the importance of Cognia's portfolio diversification.

Cogna continues on the right track to deliver the 2024 guidance, with another quarter of revenue growth, despite the negative seasonality of the National Book and Textbook Program (PNLD), and, above all, with efficiency gains and, therefore, better profitability.

In the second quarter of the year, Cognia's total revenue increased 4.9%, driven by the growth of Kroton and Somos, more than offsetting the 10.3% decrease in Saber's revenue, due to the seasonality of the National Book and Textbook Program (PNLD).

We enter the second semester of 2024 confident that the seasonality of the second half of the year, especially in the fourth quarter, with more revenue from Somos given the start of the 2025 intake cycle, and from Saber, due to the billing of NBTP, will bring the necessary growth in the operating result and cash flow to achieve our targets for the year. Thus, we remain confident in achieving the guidance for 2024.

Growth: increasing intake in Kroton and expansion in Vasta's subscription revenue

In Kroton, the ability to obtain increasing intake revenue, as well as the improvement in reenrollment, due to greater academic engagement and financial quality of the student base, had a positive effect on Net Revenue, which grew 4.9% in 2Q24 and 8.2% in the semester.

In Vasta, Net Revenue grew 8.5% in the quarter, even without a new B2B contract, but driven by a 32.5% increase in Subscription Revenues. In the cycle-to-date of 2024, Net Revenue grew 11.0% compared to the same period of the previous year, driven by a 13.8% growth in Subscription Revenues, both in Core Solutions and Complementary Solutions.

At Saber, Net Revenue decreased 16.5% in 2Q24 vs 2Q23, due to the seasonality of the National Book and Textbook Program (PNLD), reaching R\$ 73.2 million. In the semester, Net Revenue grew 21.5% and reached R\$ 266.3 million.

Experience: ongoing evolution in the experience of our students and clients

At Kroton, our relentless work in delivering the best experience for the student is reflected in the growth of our students' recommendation, with a 6-point increase in the NPS of the DL modality in the first semester of 2024 compared to the same period of the previous year and a 15-point improvement in the NPS of the On Campus modality in the same period.

The student's experience continues to be our obsession, as we understand that delivering a service with the least amount of friction and inconvenience possible is fundamental to maintain our position as the most efficient company in the sector, enabling offers at extremely affordable prices. We have launched a new system for the distance learning education modality that integrates our systems and allows data and processes to be accessed even faster and more reliably for our students. The Transformation Program (PTC) includes seven projects focused on improving key student journeys at the institution: admission, academic, administrative and financial. PTC is an evolutionary program that will bring even more efficiency, innovation, growth and the best experience to our students.

In the last 12 months, we have reached the mark of 91% of evaluations of active courses with an excellent rating (grades 4 or 5). For DL courses, the concepts of excellence reached 97% of MEC visits.

The result of these actions is market recognition: In 2024, we won the Gold award in Customer Services, Back Office, and Hyper Automation from Cliente SA and we are among the Best Companies in Customer Satisfaction for MESC Google (Best Customer Satisfaction Companies). MESC is a startup recently acquired by Google, which uses Google Opinion as its base. This is a fully independent award, based on the opinion of users who leave reviews on the internet/Google, and then audits the winner through a "Mystery Client" methodology (or "Mystery Student", in our case).

People and Culture: diversity and focus on retaining our talent.

In 2Q24, Cogna received the Great Place to Work seal for the 3rd consecutive year. This certification is extremely relevant in attracting and retaining talent, being widely recognized in the market for giving the company the reputation of an excellent employer.

This quarter, we concluded the first Trainee program for Black Women, which started in January 2023. The program aimed to develop skills and competencies to accelerate the readiness of these women to hold relevant positions in the company. For 18 months, the trainees were involved in high-impact projects in strategic areas, participating in over 40 hours of training and holding meetings with experts from Cogna and its partner Indique uma Preta, which also promoted training for leaders. In July 2024, the employees took on strategic positions with the purpose of leveraging the business. The program reinforces our purpose of driving people's development and our public commitment to gender equity in leadership positions.

In July, the Institutional Investor Magazine ranking, prepared annually through a market research, was disclosed. We achieved second place in the IR Professional category and first place in the IR Team category, according to the Sell-Side perspective. This recognition reflects our ongoing commitment to transparency and quality in our relationship with our investors.

In recent years, our company has been committed to transforming its organizational culture, adopting a approach centered on a partner mindset and the delivery of concrete results. Such cultural change has been a fundamental pillar in our path to success and sustainable growth.

Innovation: external recognition of consistency and traction in the innovation journey

In recent years, Cogna has undergone a significant transformation, driven by the implementation of new technologies and the strategic use of artificial intelligence. Sai progress has been fundamental to improve our processes and increase operational efficiency.

By applying these advanced tools, we can automate processes, reduce costs and improve decision-making. We will continue investing in technology and artificial intelligence to ensure that our company remains at the market forefront, always seeking ways to add value and exceed the expectations of our students and clients.

In August 2024, as external recognition of the consistency and traction in the company's innovation journey, Cogna was recognized as the most innovative company in the Education Sector by the VALOR 2024 award, holding the 27th position in the overall ranking of the most innovative companies in the country. This award reinforces that we are on the right track, focusing on the CVB - Corporate Venture Building and OPEN INNOVATION fronts.

OPERATING PERFORMANCE

KROTON

Students base and movement: Undergraduate

	Total			Presencial			Kroton Med			EAD		
	1S24	1S23	% AH	1S24	1S23	% AH	1S24	1S23	% AH	1S24	1S23	% AH
Base inicial	954.133	896.495	6,4%	140.038	154.650	(9,4%)	33.461	29.621	13,0%	780.634	712.224	9,6%
<i>Formaturas</i>	(117.713)	(120.008)	(1,9%)	(19.852)	(23.881)	(16,9%)	(3.182)	(3.081)	3,3%	(94.679)	(93.046)	1,8%
Captação	529.267	469.832	12,7%	52.093	47.611	9,4%	13.561	12.068	12,4%	463.613	410.153	13,0%
<i>Evasão e Não Renovação</i>	(227.470)	(263.336)	(13,6%)	(18.188)	(23.323)	(22,0%)	(5.478)	(4.200)	30,4%	(203.804)	(235.813)	(13,6%)
Base final	1.138.217	982.983	15,8%	154.091	155.057	(0,6%)	38.362	34.408	11,5%	945.764	793.518	19,2%

The total student base of Kroton recorded a significant growth of 15.8% in the first semester of 2024, reaching 1.1 million students. This growth is the result of the strong intake in all modalities, +9.4% in On Campus, +12.4% in Kroton Med, and +13.0% in Distance Learning, as well as the reduction in the dropout rate and non-renewal, -4.2 p.p. in DL and -1.7 p.p. in On Campus, strengthening the growth of the harvest.

We had a 21.5% increase in Intake Revenue in the semester compared to the same period in 2023, due to the increase in the number of student intake.

Average Ticket

	Total			Presencial			Kroton MED			EAD		
	1S24	1S23	% AH	1S24	1S23	% AH	1S24	1S23	% AH	1S24	1S23	% AH
Ticket Médio	362	381	(4,8%)	810	829	(2,3%)	1.966	1.983	(0,9%)	238	241	(0,9%)

In the first semester of 2024, the average ticket of the students decreased 4.8% compared to the same period of the previous year. Such impact occurs mainly due to two factors: 1) greater mix of freshmen in the total base, due to the strong student intake, with a higher concentration of distance learning education students, who have a lower average ticket; 2) improvement in the freshmen dropout rate, pulling down the average ticket price as the seniors have a higher ticket price since they have already experienced price adjustments linked to the inflation for the period.

Students base and movement: Graduate

	Pós - Graduação		
	1S24	1S23	% AH
Base inicial	71.510	67.405	6,1%
<i>Formaturas</i>	(53.270)	(57.509)	-7,4%
Captação	70.721	60.572	16,8%
<i>Evasão</i>	(3.822)	(2.237)	70,9%
Base final	85.139	68.231	24,8%

The graduate student base grew 24.8% in the first semester of 2024 compared to the same period of 2023, reflecting the strength of the course portfolio, the high NPS of students, and the strength of our distribution channels. With such growth, we ended the quarter with 85.1 thousand graduate students.

Net income

In the second quarter of 2024, Kroton Consolidated's Net Revenue grew 4.9% compared to 2Q23, reaching R\$ 1,087.7 million, due to increasing volumes in recent student intake and improvement in dropout rates during the period. The growth of Net Revenue was 8.2% higher in the semester, totaling R\$ 1,994.8 million.

VASTA

The second quarter of 2024 corresponds to the third quarter of 2024 intake cycle for Vasta. The results achieved during this period show that the business unit continues to grow, according to the company's expectations.

	2024	2023	% AH
Escolas Parceiras			
Conteúdo Core	4.744	5.032	-5,7%
Soluções Complementares	1.722	1.383	24,5%
Alunado			
Conteúdo Core	1.432.289	1.539.024	-6,9%
Soluções Complementares	483.132	453.552	6,5%

In the 2024 sales cycle, Vasta expects to provide core content solutions to approximately 1.4 million students and complementary solutions to around 500,000 students. This is aligned with the company's strategy to focus on improving its customer base in 2024 through a better mix of schools and growth in premium learning systems (Anglo, PH, Amplia, and Fibonacci), brands with higher average ticket, lower default rate, greater adoption of complementary solutions, and long-term relationships. On the other hand, the decrease of our customer base focused on the network segment, which has a higher average number of students and lower margin. As contracts with schools are always signed in the first and fourth quarters, the operational data of partner schools and the number of students for this quarter are equivalent to those of the first quarter.

In our new growth avenue Start-Anglo, we signed 10 new contracts in 2Q24, totaling 30 contracts distributed in 11 Brazilian states, thus highlighting the great potential for growth and market penetration of Start-Anglo.

Net revenue

Vasta - Valores em R\$ ('000)	2T24	2T23	% AH	Ciclo 2024	Ciclo 2023	% AH
Receita Líquida	294.352	271.393	8,5%	1.309.176	1.179.249	11,0%
Subscrição	279.759	211.150	32,5%	1.152.005	1.012.313	13,8%
Conteúdo Core	275.816	206.671	33,5%	967.819	858.750	12,7%
Soluções Complementares	3.943	4.479	-12,0%	184.186	153.563	19,9%
Não - Subscrição	14.593	19.790	-26,3%	88.140	126.483	-30,3%
B2G	-	40.453	-100,0%	69.031	40.453	70,6%

In the second quarter of 2024, Vasta's Net Revenue reached R\$ 294.4 million, accounting for a growth of 8.5% compared to the same period in 2023, mainly due to the 33.5% increase in Core Content, given the different seasonality of the new contracts, where part of the product delivery was migrated to the third quarter of the intake cycle.

In the 2024 cycle, the Net Revenue reached R\$ 1,309.2 million, driven mainly by the growth in sales to the Government (B2G), with an increase of 71.6%, and the growth in sales of complementary solutions of 19.9%.

The subscription revenue has already reached 85.3% of the accumulated Annual Contract Value (ACV) guidance in the 2024 sales cycle, accounting for an increase of 1.4p.p compared to the same previous period, which was 83.9% of the ACV.

SABER

Student Base

Base de Alunos	2T24	2T23	% AH
Unidades Red Balloon e Escolas Parceiras	128	115	11,3%
Alunos Red Balloon e de Escolas Parceiras	34.263	28.618	19,7%

The number of Red Balloon units, including franchises and partner schools, increased 11.3% between 2Q24 and 2Q23, which represents the opening of 13 new units. The growth of units, as well as the evolution of our marketing and sales skills, allowed us to grow an impressive 19.7% in our student base during the year.

Net revenue

Saber - Valores em R\$ ('000)	2T24	2T23	% AH	1S24	1S23	% AH
Receita Líquida	73.204	87.678	-16,5%	266.336	219.214	21,5%
Receita Líquida - PNLD	23.900	33.209	-28,0%	96.187	79.727	20,6%
Livros vendidos – Ensino Superior	10.143	17.338	-41,5%	31.646	43.201	-26,7%
Receita Líquida - Idiomas	12.633	15.341	-17,7%	52.841	49.491	6,8%
Receita Líquida - Outros Serviços	26.528	21.789	21,7%	85.661	46.795	83,1%

In the second quarter of 2024, Net Revenue from Saber decreased 16.5%, reaching R\$ 73.2 million. This result is due to the advance of part of the expected revenue from NBTP compared to the same period of the previous year, partially offset by the growth in sales of the Acerta Brasil program, which assesses and enhances the learning and progression of students in public schools.

Considering only the continued operations, Net Revenue in the quarter reached R\$ 63.0 million, with R\$ 10.2 million linked to the sales operations of higher education books (SETs), which were sold in May 2024, representing a 10.3% decrease in the second quarter of 2024 compared to the same period of the previous year.

FINANCIAL PERFORMANCE

The following information refers to continued operations:

Net Revenue

In the second quarter of 2024, Net Revenue reached R\$ 1,431.6 million, a 4.6% growth versus the same period of 2023. In the semester, accumulated growth was 10.3%, totaling R\$ 2,948.4 million.

Costs

The costs of products and services reached R\$ 938.7 million in the first semester of 2024, which is equivalent to 31.8% of net revenue for the period, thus reducing this percentage by 4.4% compared to the same period of the previous year due to the increase in the share of revenue from digital courses in Net Revenue (which does not generate additional costs).

Gross Profit

Gross profit in the first semester of 2024 reached R\$ 2,009.8 million, with a gross margin of 68.2%, a 4.4% increase compared to same period of previous year.

Operating Expenses

Operating expenses reached R\$ 1,558.9 million in the first semester of 2024, representing 52.9% of net revenue for the period against 48.9% of net revenue in the same period of 2023. Operating expenses are broken down into three broad lines:

- General and administrative expenses: operating expenses include general and administrative expenses and expenses with administrative personnel, consultancies, travel and outsourced services, among others. In the semester, these expenses totaled R\$ 913.1 million or 31.0% of net revenue, an increase of 4.3 p.p. compared to the same period of previous year.
- Sales expenses: sales expenses includes expenses related to the sales, advertising and marketing team and copyright. In the semester, these expenses reached R\$ 410.3 million, corresponding to 13.9% of net revenue, a 2.4 p.p. increase compared to the same period of previous year.
- Impairment losses on trade receivables: the group of expenses with impairment losses on trade receivables in the semester totaled R\$ 233.2 million, 7.9% of net revenue, a reduction of 0.3 p.p. compared to the same period of 2023, due to the continued improvement in the delinquency at Kroton.

Furthermore, other operating revenues/expenses and equity income amounted to R\$ 2.4 million in the first semester of 2024, or 0.1% of net revenue, compared to R\$ 67.6 million in the same period of 2023, mainly composed of the price adjustment in accounts payable for the acquisition of R\$ 59.4 million.

Financial result

In the first semester of 2024, the Financial Result was negative at R\$ 497.0 million, representing 16.9% of net revenue for the period, an increase of 0.8% compared to the same period of 2023, with financial costs decreasing 2.9% in year over year and reaching R\$ 643.5 million in the semester and finance income decreasing 3.7% in year over year, reaching R\$ 146.5 million in the semester.

Income tax and social contribution

Income Tax and Social Contribution totaled positive R\$ 22.1 million in the first semester of 2024 and accounted for 0.8% of net revenue.

Net income (loss)

The accumulated Net Loss in the first semester of 2024 was R\$ 27.3 million, accounting for 0.9% of the Net Revenue for the period, compared to a Net Loss of R\$ 11.0 million in the same period of 2023, with a decrease in the net margin of 0.5% between 2Q23 and 2Q24. This decrease between the representativeness of semesters is the result of the combination of: (i) increase in general and administrative expenses of 4.3%, mainly due to the decrease in credit for reversals of contingencies linked to the prescription of the opening balance and; (ii) increase in sales expenses of 2.4%, due to the marketing strategy.

Net Indebtedness

The company's net debt decreased 1.2% in the first semester of 2024 compared to the same period of the previous year, from R\$ 3,362.7 million to R\$ 3,323.5 million, mainly due to the payment of interest and M&A obligations. At the end of the semester, the total of cash and cash equivalents totaled R\$ 934.7 million, a value 41.4% lower compared to the first semester of 2023 due to the use of cash for debt prepayment.

The Company obtained a leverage (Net Debt/Adjusted EBITDA) of 1.79x at the end of 2Q24, in line with 1Q24. This level of leverage is calculated in accordance with the company's debenture regulations, in which: (i) Net debt considers the sum of loans and financing and accounts payable for acquisitions, less cash and cash equivalents position and; (ii) Adjusted EBITDA considers, in addition to EBITDA, Non-recurring items and the sum of the balance between provisions and contingency reversals with no cash effect.

CAPITAL MARKET AND SUBSEQUENT EVENTS

SHAREHOLDING STRUCTURE

Cogna's share capital is represented by 1,876,606,210 common shares and is distributed as follows:

Composição Acionária Cogna*	Quantidade	%

Review report of quarterly information – ITR

To the Shareholders, Board members and Managers of
Cogna Educação S.A.
Belo Horizonte - MG

Introduction

We have reviewed the individual and consolidated interim financial information of Cogna Educação S.A. ("Company"), contained in the Quarterly Information – ITR Form for the quarter ended June 30, 2024, which comprises the balance sheet on June 30, 2024 and related statements of income, of comprehensive income for the three and six-months period then ended, and the related statements of changes in shareholders' equity and of cash flows for the six-months period then ended, including the explanatory notes.

The Company's Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with CPC 21(R1) and International Standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of this information in a manner consistent with the standards issued by the Brazilian Securities and Exchange Commission, applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of the review

Our review was carried out in accordance with the Brazilian and international review standards for interim information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the individual and consolidated interim financial information included in the quarterly information referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, applicable to the preparation of Quarterly Information - ITR, and presented in a manner consistent with the standards issued by the Brazilian Securities and Exchange Commission.

Other matters

Statements of added value

The aforementioned interim quarterly information includes the individual and consolidated statements of added value for the quarter ended June 30, 2024, prepared under responsibility of Company's Management, and presented as supplementary information for IAS 34 purposes. These statements have been subject to review procedures performed in conjunction with the review of the quarterly information, in order to determine whether they are reconciled with the interim financial information and book records, as applicable, and whether their form and content are in accordance with the criteria defined in Technical Pronouncement CPC 09 - Statement of Added Value. Based on our review, nothing has come to our attention that causes us to believe that those statements of added value have not been prepared, in all material respects, in accordance with the criteria set forth in this Standard and consistently with respect to the individual and consolidated interim financial information taken as a whole.

1. Operations

Cogna Educação S.A., hereinafter referred to as “Company”, “Individual” or “Cogna”, headquartered at Rua dos Guajajaras, nº 591, in the city of Belo Horizonte – MG, and its subsidiaries (jointly, the “Group”) are mainly engaged in providing On Campus and distance-learning higher education and graduate program courses; editing, marketing and distribution of teaching books, educational materials and workbooks, especially with educational, literary and informative content and learning systems; offer, by means of their schools, basic education, pre-university preparatory courses, language courses for children and adolescents; educational solutions for technical and higher education, among other complementary activities, such as education technology development for services to complement management and training; the administration of kindergarten, elementary and high school activities; advising and/or enabling the possibility of direct and indirect financing of students in relation to their respective school modalities and the development of software for adaptive teaching and optimization of academic management.

Cogna carries out its activities through its direct subsidiaries: Editora e Distribuidora Educacional S.A. (“EDE”), Anhanguera Educacional Participações S.A. (“AESAPAR”), Vasta Platform Limited (“Vasta”), Saber Serviços Educacionais Ltda. (“Saber”) and Pitágoras Sistema de Educação Superior Sociedade S.A (“PSES”).

The Company is listed on B3 - Brasil, Bolsa, Balcão, in the special segment referred to as Novo Mercado, under code COGN3 through which it trades its common shares. In addition, the subsidiary Vasta has been publicly traded on the North American stock exchange NASDAQ, operating under code VSTA.

The Company’s interim financial information was approved for issue by the Board of Directors on August 6, 2024.

2. Material accounting policies

The Company presents the interim financial information in accordance with CPC 21 (R1) Interim Statement, issued by the Accounting Pronouncement Committee (CPC) and IAS 34 - Interim Financial Report, issued by the International Accounting Standards Board (IASB), as well as the standards established by the Brazilian Securities and Exchange Commission (CVM).

Based on Management's assessment of the relevant impacts of the information to be disclosed, the notes described below are not being presented:

- Description of significant accounting policies;
- Estimates and accounting judgments;

The significant accounting policies, in addition to accounting estimates and judgments adopted in the preparation of the interim information is consistent with those adopted and disclosed in the annual financial statements for the year ended December 31, 2023, and therefore, these documents should be considered together.

3. Assets and liabilities held for sale and discontinued operations

On May 31, 2024, the Company, through its subsidiary Saber, completed, after approval by the Administrative Council for Economic Defense (CADE), the sale operation, through stock purchase and sale agreement and other covenants, to Grupo Editorial Nacional Participações S.A ("GEN"), of the entire share capital of its subsidiary SRV Editora Ltda., which, on the closing date of the transaction, held all inventory, license or sublicense and, exclusively, the publishing labels SaraivaJur, SaraivaUni, Benvirá, and Érica – focused on higher education, which make up the SETS assets, related to the business of publishing and marketing print and digital books, in the "Scientific, Technical and Professional" ("CTP") segment ("Operation"). The operation does not include textbooks (aimed at primary education) and NBTP books.

The operation also included the sale of the entire equity interest held by Grupo Cogna (20%) in Minha Biblioteca Ltda, a company formed by publishing groups to offer books in digital library format to higher education institutions. The total price of the operation was R\$ 62,200, which was received in cash.

Considering the context of the aforementioned transaction, during 2023, the Company reclassified the balances in the SETS business Balance Sheet under the item "Assets Held For Sale" and "Liabilities Held For Sale." There are no equity balances to be highlighted in these captions in the period ended June 30, 2024, due to the write-off of these operations. In addition, regarding the impacts on the income, the Company reclassified the balances to the "result of discontinued operations" item, including the comparative result for 2023, which is restated, as provided for in technical pronouncement CPC 31/IFRS 5.

We present below the effects for the three and six-month period of 2024 and 2023:

Statement of Income for the Period

	04/01– 06/30/2024	06/30/2024	04/01– 06/30/2023	06/30/2023

4. Financial risk management

4.1. Sundry considerations and policies

Risk management and financial instrument management are carried out through policies, strategic definitions or implementation of control systems, which are defined by the Company's Board of Directors. The adherence of treasury positions to financial instruments is presented and evaluated monthly by the Company's Treasury Committee and subsequently submitted to the Audit and Executive Committees and the Board of Directors.

The market value of the Company's financial assets and liabilities were calculated based on available market information and appropriate valuation methodologies for each scenario. However, considerable judgment was required in the interpretation of the market data to estimate the most adequate realization value. Consequently, the estimates presented here do not necessarily indicate the values that could be realized in the current exchange market. Using different market information and/or evaluation methodologies may have a material effect on market value amount.

To provide an indication of the reliability of the data used in measuring the fair value, the Company classified its financial instruments in accordance with judgments and estimates of observable data, as far as possible. The fair value hierarchy is based on the degree to which the observable fair value is used in valuation techniques as follows:

- Level 1: Fair value measurements are those derived from prices quoted (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Fair value measurements are those derived from inputs other than the quoted prices included in Level 1 that are observable for the asset or liability, directly or indirectly; and
- Level 3: Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

We present below the hierarchy of financial instruments recorded in the Company's equity balances as of June 30, 2024. The Company did not disclose the fair values of financial instruments because their book values approximate the fair value.

Fair value hierarchy	Level	Individual		Consolidated	
		06/30/2024	12/31/2023	06/30/2024	12/31/2023
Assets - Amortized cost

4.2. Financial risk factors

The Company's activities are exposed to market, credit and liquidity financial risks.

The Company's Management and the Board of Directors oversee the management of these risks in line with the goals in capital management:

a) Policy for use of derivative financial instruments

Derivative financial instruments are recognized at fair value on the date the derivative agreement is entered into, and are subsequently remeasured at their fair value through profit or loss. Changes that occur are recorded under finance income or costs, in the statement of income. The Company carries out transactions with derivative financial instruments, without speculative purposes, with the purpose of hedging its exposure to changes in interest rates linked to the bonds contracted and updated by the IPCA rate, related to the issues "COGNA 8th issue of bonds", 2nd and 3rd series and "COGNA 11th issue of bonds", 3rd series, in addition to those updated at fixed rate of 12.50%, related to "COGNA 11th issue, 2nd series". These derivative financial instruments are specifically represented by swap contracts and measured at fair value through profit or loss.

Derivative operations have the following conditions and amounts in the period ended June 30, 2024:

Swap transaction	Purpose of the derivative	Remuneration of assets	Compensation of liabilities	Notional value (R\$)	Maturity	Consolidated		
						Long position (R\$)	Short position (R\$)	(Loss) (R\$)
COGNA - 8 th issue of 2 nd series bonds	Debenture protection	IPCA + 7.9273%	CDI + 2.1900%	329,993	07/16/2029	388,221	406,509	(18,288)
COGNA - 8 th issue of 3 rd series bonds	Debenture protection	IPCA + 8.0031%	CDI + 2.5900%	101,654	07/15/2032	122,832	132,897	(10,065)
COGNA 11 th issue of 2 nd series bonds	Debenture protection	12.50% fixed rate	CDI + 2.0800%	363,327	11/16/2028	366,395	387,799	(21,404)
COGNA 11 th issue of 3 rd series bonds	Debenture protection	IPCA + 6.9165%	CDI + 1.5900%	51,508	11/18/2030	53,720	56,639	(2,919)
Total				846,482		931,168	983,844	(52,676)
Non-current assets								-
Non-current liabilities								(52,676)
								(52,676)

During the period, the contracts were amortized and interest was paid, as follows:

	Consolidated	
	06/30/2024	06/30/2023
Balance on December, 31	758	18,054
Losses on derivative instruments, net	52,960	(13,233)
Payment of principal	-	(3,685)
Interest payment	(1,042)	(13,421)
Balance on June, 30	52,676	(12,285)

b) Market risk - cash flow risk associated with interest rates

This risk arises from the possibility that the Group may incur losses due to fluctuations in interest rates that increase financial costs related to loans and bonds raised in the market, in addition to operations with derivatives (swap) which aim at hedging these bonds contracted and also accounts payable to third parties for installment acquisitions. The Company continuously monitors market interest rates, to manage the cash balance and financial liabilities related to these rates.

The Company's financial instruments with exposure to the risk of fluctuations in interest rates pegged to the CDI, IPCA and TJLP rates, as well as the contracted interest rates, are presented below:

	06/30/2024	12/31/2023	Consolidated Interest rate
Bonds pegged to the CDI (Interbank Deposit Certificate) rate	3,128,729	3,786,690	100% CDI + int. 0.65–2.95% p.a.
Derivative financial instruments (i)	846,482	582,487	CDI + interest from 1.59% to 2.59% p.a.
Accounts payable for business combination and acquisition of associates	63,099	69,889	CDI
Total	4,038,310	4,439,066	

	06/30/2024	12/31/2023	Consolidated Interest rate
Bonds linked to the IPCA rate	524,391	740,451	IPCA + int. 1.55–8.00% p.a.
Derivative financial instruments (i)	(451,883)	(582,487)	IPCA + int. 6.92–8.00% p.a.
Accounts payable for business combination and acquisition of associates	51,115	66,551	IPCA
Total	123,623	224,515	

	06/30/2024	12/31/2023	Consolidated Interest rate
Bonds linked to fixed rates	352,436	345,831	12.50% fixed rate
Derivative financial instruments (i)	(341,923)	-	12.50% fixed rate
Total	10,513	345,831	

	06/30/2024	12/31/2023	Consolidated Interest rate
Loans	85,696	61,578	TJLP + 1.25% p.a.
Total	85,696	61,578	

(i) Relative to the amount contracted by the Company to hedge against fluctuations in the interest rates of bonds linked to the IPCA rate ("notional value", as presented in Note 4.2 (a)).

c) Credit risk

It is the risk of a business counterpart not complying with obligations provided in a financial instrument or contract with client, resulting in financial loss. The Company is exposed to credit risk during their operating and financing (related to FIES, PEP and PMT) activities (mainly in relation to accounts receivable), including deposits in banks, securities, in addition to other financial instruments. The Company maintains its adequate provisions in the balance sheet to cover such risks, and the practices adopted for their control remain unchanged from those presented in the Financial Statements for the year ended December 31, 2023.

The credit quality of financial assets can be evaluated by reference to external credit ratings (if any) or according to historical information about counterparty delinquency indexes:

		Consolidated
	06/30/2024	12/31/2023
Trade receivable (Note 7)		
Kroton	4,999,974	4,938,328
Vasta	747,971	783,447
Saber	116,673	151,804
Credit card	12,672	10,809
Gross trade receivable	5,877,290	5,884,388
Expected loss	(3,418,327)	(3,411,102)
Adjustment to present value	(85,407)	(81,910)
Trade receivable, net	2,373,556	2,391,376

Financial instruments and cash deposits

The Company and its subsidiaries restrict its exposure to credit risks associated with financial instruments and deposits with banks and financial investments by investing in top-tier financial institutions and in accordance with previously established limits in Company's policy.

		Consolidated
	06/30/2024	12/31/2023
Cash and cash equivalents (Note 5)		
AAA (i)	85,827	624,232
AA (ii)	8,918	251
	94,745	624,483
Securities (Note 6)		
AAA (i)	888,109	1,212,845
	888,109	1,212,845

- (i) Since Santander Brasil is not evaluated by Fitch, the rating of the Standard & Poor's agency was used to classify the investments issued by the financial institution in the amount of R\$ 292,690, of which R\$ 3,106 were allocated in cash and cash equivalents and R\$ 289,584 allocated to securities.
- (ii) Investments in National Treasury securities are classified by the Brazil rating considering the global scale, which is BB, and in rating correspondence on a global and local scale, this classification is allocated in AA.

d) Liquidity risk

It consists of the eventuality of the Company not having sufficient financial resources to honor their commitments on account of the different settlement terms of their rights and obligations.

The cash flow of the Company and its subsidiaries is carried out centrally by the Group's finance department, which monitors the forecasts of the entities' liquidity requirements to ensure that they have sufficient cash to meet their operational needs. The Group also constantly monitors the cash balance and the level of indebtedness of the companies and implements measures so that the companies receive eventual capital contributions and/or access the capital market when necessary, and so that they remain within the existing credit limits. This forecast takes into consideration the debt financing plans, compliance with clauses, attainment of the internal goals of liquidity indicators of the balance sheet and, if applicable, regulatory requirements.

The cash surplus held by the entities, in addition to the balance required for the management of working capital, is also centrally managed by the Group. The treasury department invests the cash surplus in time deposits, short-term deposits, and securities, choosing instruments with appropriate maturities or sufficient liquidity, to maintain the Company with an appropriate volume of resources to maintain its operations.

The Company's main financial liabilities refer to bonds contracted, derivative financial instruments (swap), trade accounts payable and suppliers - reverse factoring, and accounts payable for acquisitions. The main purpose of such financial liabilities is obtaining funds for the Group's operations. The following table shows the Company's financial liabilities, by maturity, corresponding to the remaining period of the security or liability.

Financial liabilities by maturity bracket

	≤01 year	01-02 years	>02 years	Consolidated Total
June 30, 2024				
Loans	10,974	13,951	60,771	85,696
Bonds	109,588	1,384,889	2,511,079	4,005,556
Suppliers	619,171	-	-	619,171
Reverse factoring	527,330	-	-	527,330
Derivative financial instruments	-	-	52,676	52,676
Accounts payable for business combination and acquisition of associates	68,264	13,579	32,371	114,214
	1,335,327	1,412,419	2,656,897	5,404,643

Financial liabilities by maturity bracket - Projected ⁽ⁱ⁾

	≤01 year	01-02 years	>02 years	Consolidated Total
June 30, 2024				
Loans	11,708	14,884	64,837	91,429
Bonds	122,511	1,548,198	2,807,190	4,477,899

Reverse factoring	559,805	-	-	559,805
Derivative financial instruments	-	-	58,888	58,888
Accounts payable for business combination and acquisition of associates	76,314	15,180	36,188	127,682
	1,389,509	1,578,262	2,967,103	5,934,874

(i) It considers the most likely base scenario over a 12-month horizon. Projected rates: CDI – 11.79% and TJLP 6.69% p.a.

4.3. Capital management

The main purpose of the Company's capital management is to safeguard its ability to continue operating, to offer good returns to shareholders and reliability to other interested parties, in addition to maintaining a capital structure with a focus on reducing financial costs, maximizing shareholder's return.

In order to keep or adjust the capital structure, the Company may review the dividend payment and capital return to shareholders' policy or even issue or repurchase shares.

The Company has a capital structure designed to make the growth strategy feasible, whether organically or through acquisitions. Investment decisions consider the expected return potential.

Therefore, we present below the financial leverage ratios:

	06/30/2024	Consolidated 12/31/2023
Loans, bonds, accounts payable for acquisitions and derivative financial instruments	(4,258,142)	(5,071,748)
Cash and cash equivalents and marketable securities	934,689	1,791,288
Net debt	(3,323,453)	(3,280,460)
Shareholders' equity	11,640,738	11,665,394
Leverage ratio	28.55%	28.12%

4.4. Sensitivity analysis

The following is the sensitivity analysis of financial instruments, which shows the risks that could generate material losses to the Company, according to the assessment made by Management, considering, for a period as the most probable base scenario in a 12-month horizon, the projected rates: CDI – 11.79%, IPCA – 4.23%, TJLP – 6.69% and fixed at 12.50% p.a. Additionally, we show scenarios with 15% and 30% deterioration in the risk variable considered, respectively.

	Exposure	Risk	Consolidated		
			Probable scenario	Possible scenario -15%	Remote scenario -30%
Cash and cash equivalents, marketable securities	934,689	CDI increase	110,220	126,753	143,287
Bonds and Other liabilities to the CDI (Interbank Deposit Certificate)	(4,038,310)	CDI increase	(476,206)	(547,636)	(619,067)
Bonds and Other liabilities linked to the IPCA	(123,623)	IPCA increase	(5,226)	(6,010)	(6,794)
Bonds linked to fixed rate	(10,513)	Fixed	(1,314)	(1,511)	(1,708)
Loans	(85,696)	TJLP incr.	(5,733)	(6,593)	(7,453)
	(3,323,453)		(378,259)	(434,997)	(491,735)

Source: IPCA of the Focus report of the Central Bank of Brazil - BACEN, and CDI (Interbank Deposit Certificate) according to reference rates B3 S.A., both available on the websites of the respective institutions.

5. Cash and cash equivalents

	Individual		Consolidated	
	06/30/2024	12/31/2023	06/30/2024	12/31/2023

Total discontinued operations	-	-	-	2,866
Total Cash and Investments available⁽ⁱⁱ⁾	1,325	509,390	94,745	627,349

- (i) Related to daily interest earning bank deposits with private banks backed by public securities without risk of loss of profitability when redeemed and with immediate liquidity.
- (ii) It comprises the total cash and interest earning bank deposits held by the Company considering the SETS's operation on December 31, 2023, which were reclassified to the "Assets held for sale" item.

The Company and its subsidiaries have short-term Interest earning bank deposits with high liquidity and an insignificant risk of change in value, mainly linked to the CDI (Interbank Deposit Certificate) or SELIC rate, a significant part of which is made from exclusive fixed-income investment funds, under the administration and management of large financial institutions. The purpose of these funds is to remunerate the Group's cash and cash equivalents without incurring medium and high-risk instruments or securities. Interest earning bank deposits have average gross profitability of 103.8% of CDI (101.8% of the CDI on December 31, 2023).

6. Securities

	Individual		Consolidated

Current assets				2,266,054
Non-current assets				125,322
				2,391,376

- (i) Receivables arising from installment sales by credit card, arising from payments for services provided and goods sold by the Company.
- (ii) It comprises accounts receivable from services rendered by the Group's language schools, in addition to Educational Solutions for Technical and Higher Education ("SETS") products, and the Brazilian Book and Teaching Material Program (NBTP).

b) Analysis of accounts receivable maturities (aging list)

	06/30/2024	Consolidated 12/31/2023
Amounts falling due	2,045,919	2,272,042
Overdue (days):		
≤30	319,354	317,388
31-60	207,396	140,442
61-90	137,904	126,610
91-180	247,715	279,057
181-365	521,967	524,489
>365	2,397,035	2,224,360
Total overdue	3,831,371	3,612,346
Provision for expected loss	(3,418,327)	(3,411,102)
Adjustment to present value	(85,407)	(81,910)
	2,373,556	2,391,376

Kroton - paying students

	06/30/2024	Consolidated 12/31/2023
Amounts falling due	99,287	95,828
Overdue (days):		
≤30	42,210	31,220
31-60	62,492	37,405
61-90	83,889	73,153
91-180	229,205	273,864
181-360	251,597	268,447
>365 (i)	159,907	136,180
Total overdue	829,300	820,269
Gross Accounts Receivable - Paying Student (-) AVP	928,587	916,097
(-) Balance of ADA	500,282	524,718
Net Accounts Receivable - Paying Student	428,305	391,379
Gross ADA/AR Percentage	53.9%	57.3%

- (i) It considers the student's accounts receivable with the longest delay (delinquency effect by the student's SSN). In other words, the sum of trade notes maturing in up to 365 days, but due to the fact of having any student trade note with a higher maturity date which has already been written-off as loss, now has an ADA fully provisioned.

c) Impairment losses on trade receivables and write-offs

The Company sets up the provision for expected loss monthly by analyzing the amounts of receivables recorded each month in the period of up to 12 months for the Kroton and Saber (NBTP) segments and 18 months for the Vasta and SABER segments and the respective openings by delay ranges, calculating their recovery performance. In this methodology, for each delay range, a percentage of probability of estimated loss is assigned considering current and historical information of delinquency for each product. We present below the assumptions applied to each segment:

Kroton: Payer The calculation methodology considers the probability of loss from the student's standpoint, considering all accounts receivable on their oldest due date, and which are provisioned according to the risk profile, defined by default history, academic and financial data, such as total debt, history of renegotiation, among others. The Company considers the cash inflow expected for its agreements on renegotiated securities.
Private Installment Payment: The expected loss for the PEP and PMT amounts receivable is calculated mainly based on the average between i) expected dropout rate and its delinquency rate and ii) expected graduated and dropped students rate, and their delinquency rate.

Vasta: The Company calculates the probability of loss on a monthly basis by analyzing the amounts of receivables recorded each month, and the respective openings by range of late payment, calculating the recovery performance. In this methodology, a percentage of probability of loss is assigned to each range of late payment, considering current and historical information on delinquency, which is updated monthly. It is worth emphasizing that the provision for losses is established since billing based on the performances presented by the business lines and respective expected collections up to 540 days from the maturity. Additionally, the calculation excludes sales to companies of Cogna group (intercompany sales), which do not present a risk of loss.

Saber: The Company calculates the probability of loss on a monthly basis by analyzing the monthly rollovers of receivables, overdue and falling due accounts receivable and the respective breakdowns by range of late payment, calculating the recovery performance. In this methodology, a percentage of probability of loss is assigned to each range of late payment. The Company considers the cash inflow expected for its agreements on renegotiated securities with a maturity greater than 365 days for the NBTP business segment.

Change in expected loss

The changes in impairment losses on trade receivables in the period ended June 30, 2024 and 2023, are shown below:

	06/30/2024	Consolidated 06/30/2023
Opening balance	(3,411,102)	(3,416,885)
Write-off against accounts receivable	236,265	237,599
Discontinued operations (i)	(10,314)	(844)
Formation	(233,176)	(220,507)
Closing balance	(3,418,327)	(3,400,637)

(i) Discontinued operation, as Note 3.

When the delay reaches a maturity bracket greater than 365 days (for the Kroton segment), and 540 days (for the Vasta and Saber segment), the security is written off. Even for the written-off securities, the collection efforts are maintained and the respective receipts and renegotiations are recognized directly in the income (loss) when realized.

d) Private Special Installment Plan (PEP/PMT)

The balance of accounts receivable from the Private Installment Payment (PEP/PMT) consists of the receivables from the installment products offered in Kroton's on campus education, which is segregated into two main products:

- i) Private Student Installment Payment (PEP). This product aims to provide access to education for students who, despite depending on student funding, do not have access to it. In this modality, the student would pay about half of the tuition of the course after graduation, with the expectation of closing the payments in double the duration of the course. As of the 2021 cycle, the Company decided to no longer offer the PEP product to new entrants.
- ii) Late Enrollment Installment Payment (PMT). This product is offered only in the semester of student enrollment and aims to facilitate payment for students who enroll in the middle of the twice-yearly cycle. Instead of charging the monthly fees accumulated from the first month of the semester to the month of the student's entry, initially, the student would pay only one monthly fee and the payment of the others would be postponed after graduation. In the second semester of 2021, the Company changed the offer of this product where, for new entrants, the tuition fees of this project will be diluted throughout the course and no longer paid only after graduation.

Expected PEP and PMT Recovery

The expected loss for the PEP and PMT amounts receivable is calculated mainly based on the average between i) expected dropout rate and its delinquency rate and ii) expected graduated and dropped students rate, and their delinquency rate. The projection of future losses calculated by the Company represents, on the measurement date, the management's best estimate of future delinquency, considering historical receipt data for the dropped and graduated PEP and PMT classes, adjusted by the current market conditions, economics, and percentage of estimated future recovery.

8. Inventories

	Consolidated	
	06/30/2024	12/31/2023
Finished products (i)	288,862	297,844
Work in process	112,266	106,481
Raw materials	62,748	66,418
Right to return	5,070	5,864
	468,946	476,607

- (i) The finished products recorded a reduction in relation to the net realizable value corresponding to the provision for inventory losses of R\$ 121,126 (R\$ 118,580 in 2023).

9. Taxes recoverable

	Individual		Consolidated	
	06/30/2024	12/31/2023	06/30/2024	12/31/2023
Recoverable PIS, COFINS and ISS (i)	90	41,435	109,356	179,119
Recoverable INSS	-	-	7,999	3,034
Other recoverable taxes	-	-	127	127
	90	41,435	117,482	182,280
Current	90	3,330	75,107	80,699
Non-current	-	38,105	42,375	101,581
	90	41,435	117,482	182,280

(i) It refers to PIS and COFINS credits calculated and maintained in the book sale operation and which can be offset against other federal taxes, in addition to withholding taxes due to the issuance of invoices for the provision of services.

10. Income tax and social contribution

The Company has recoverable income tax and social contribution amounts related to prepayments, in addition to withholding taxes on interest earning bank deposits, and invoices from suppliers, which may be used to offset any federal tax administered by the Brazilian Federal Revenue Service.

As of June 30, 2024, the amounts related to recoverable income tax and social contribution was R\$ 169,153 in the parent company (R\$ 127,449 as of December 31, 2023), and R\$ 303,104 in the consolidated (R\$ 309,999 as of December 31, 2023).

11. Trade receivable from sale of subsidiaries

	Consolidated	
	06/30/2024	12/31/2023
COLÉGIO ALPHAVILLE	5,757	9,887
Somos Operações Escolares (i)	29,091	29,176
	34,848	39,063
Current	31,079	35,481
Non-current	3,769	3,582
	34,848	39,063

(i) The balance receivable from the sale of schools operation, involved in transactions with Salta (Eleva). The amounts presented herein are already net of the respective balance payable for the acquisition of Sistema Eleva de Ensino, totaling R\$ 598,713.

The changes in the accounts receivable from sale of subsidiaries caption are shown below:

	Consolidated	
	06/30/2024	06/30/2023
Opening balance	39,063	28,499
Addition (i)	62,200	-
Interest adjustment	2,495	1,940
Receipts	(68,910)	-
Closing balance	34,848	30,439

(i) Sales price in the SETS transaction. Further details are presented in Note 3.

The amounts are updated mainly by the variation of the CDI (Interbank Deposit Certificate) and IPCA in accordance with the respective sale contracts of subsidiaries. Below is the schedule of accounts receivable on the sale of subsidiaries:

	Maturity	06/30/2024		Consolidated 12/31/2023

COGNA EDUCAÇÃO S.A. AND SUBSIDIARIES

NOTES TO THE INTERIM FINANCIAL INFORMATION

Period ended June 30, 2024 and 2023

In thousands of reais, unless otherwise indicated

a) Goodwill generated on the acquisition of subsidiaries and intangible assets allocated in a business combination

In the Consolidated Financial Statements, the goodwill arising from the difference between the amount paid for the acquisition of investments in subsidiaries and the fair value of the assets and liabilities is classified as intangible assets. Part of the amount paid for the acquisition of the subsidiaries was allocated to identifiable intangible assets with a defined and indefinite useful life after analyzing the acquired assets.

		Consolidated
	06/30/2024	12/31/2023
Goodwill (i)	12,638,202	12,638,681
Brand (ii)	1,601,073	1,651,595
Hub operation license and partner network (iii)	675,210	675,210
Client portfolio (iv)	879,178	944,698
	15,793,663	15,910,184
Asset impairment loss	(1,798,011)	(1,798,011)
	13,995,652	14,112,173

- (i) It refers to the goodwill generated in the acquisitions of subsidiaries, classified as from expected future profitability. It has no defined useful life and is subject to annual impairment tests.
- (ii) Intangible assets with an estimated useful life between 19 and 30 years.
- (iii) It refers to licenses for operating on campus and distance learning and the distance-learning hub partner network. It has no defined useful life and is subject to annual impairment tests.
- (iv) Intangible assets with an estimated useful life between 3 and 14 years.

b) Goodwill impairment test

The Company assesses at least annually the recoverability of its assets, or when there is an indication of any impairment. As of June 30, 2024, the Company did not identify any signs of depreciation in the Cash Generating Units.

The following shows the allocation of goodwill and intangible assets allocated per cash-generating unit level:

		Consolidated
	06/30/2024	12/31/2023
Kroton (Kroton Med and Kroton Ex-Med)	8,580,154	8,615,736
Vasta (contents and digital formats)	5,062,168	5,139,917
Saber ("National Book and Textbook Program—NBTP" and Languages)	353,330	356,520
	13,995,652	14,112,173

(c) Committed performance ratios

“Cogna”, “EDE” and “AESAPAR” issues (quarterly calculations)

The bonds issued by parent company Cogna and subsidiaries EDE and AESAPAR require the maintenance of financial ratios (“covenants”), which are calculated quarterly, based on the interim information and the consolidated statements of the Company. The calculation period comprises, where it is necessary for the calculation and as determined in the deed, the 12 months immediately prior to the end of each quarter and the calculation is the quotient of the division of the net debt by the adjusted EBITDA, and the resulting amount should not be greater than 3.00. This index cannot be exceeded in 2 consecutive quarters or in 3 alternating quarters within the term of the contract, which did not occur as of June 30, 2024.

The concept of adjusted EBITDA means, based on the Company’s quarterly information (ITR) or consolidated financial statements, as the case may be, the result obtained in the twelve (12) months prior to the calculation date (last twelve months concept), less income tax and social contribution, depreciation and amortization, the financial result and the result of non-recurring items, plus operating finance income.

The financial ratio for the calculation of the division of net debt by adjusted EBITDA reached 1.79, within the conditions established in the aforementioned financial contractual clauses.

(d) Amortization schedule

In thousands of reais, unless otherwise indicated

18. Lease liabilities

(a) Changes

		Consolidated
	06/30/2024	06/30/2023
Opening balances	2,841,046	3,013,129
Additions	38,260	21,458
Renegotiations	82,626	132,169
Cancellations	(44,679)	(84,871)
Adjustment to present value ⁽ⁱ⁾	145,551	152,385
Payment of interest	(142,874)	(149,954)
Payment of principal	(80,193)	(79,395)
Closing balances	2,839,737	3,004,921
Current	164,268	196,480
Non-current	2,675,469	2,808,441
	2,839,737	3,004,921

⁽ⁱ⁾ The adjustment to present value related to lease liabilities agreements is calculated individually and applied to the useful life of the contract, considering its maturity. The fee is calculated at cost of capital less the impact estimated by the guarantee on the fee.

In addition to the amounts presented above, some of the real estate leases in which the Company and its subsidiaries are lessees contain variable terms of payment that are linked to the performance of the use of the underlying asset, and therefore are not included in the measurement of the book balances.

In accordance with the bonds deeds, the Group's lease operations have no impact on the calculation of the financial ratios (covenants) of the bonds.

(b) Items not applicable to the scope of CPC 06 (R2)/IFRS 16

As provided for in CPC 06 (R2)/IFRS 16, short-term leases (lease term of 12 months or less) and leases of low-value assets (such as personal computers and office furniture), will continue to recognize their lease expenses on a straight-line basis in the income statements for the period and thus not be included in the lease liability. These effects for the period ended June 30, 2024, are as follows:

	Consolidated
	06/30/2024 06/30/2023
Fixed payments	223,068 229,349
Variable Payments	13,872 17,396
Payments related to short-term and low-value contracts and other	3,558 5,840
Total Paid	240,498 252,585

(c) Future commitments

The lease balances payable related to "future commitments" for the period ended June 30, 2024, are shown below:

	Consolidated			Consolidated		
	IFRS 16	(-) AVP	06/30/2024	IFRS 16	(-) AVP	12/31/2023
≤01 year	443,409	(279,140)	164,269	435,259	(279,533)	155,726
01-05 years	1,740,540	(936,728)	803,812	2,085,590	(1,141,259)	944,331
>05 years ⁽ⁱ⁾	3,331,387	(1,459,731)	1,871,656	3,091,968	(1,350,979)	1,740,989
	5,515,336	(2,675,599)	2,839,737	5,612,817	(2,771,771)	2,841,046

⁽ⁱ⁾ Our contracts have an automatic renewal option, and the company intends to exercise this option, increasing the average lease term.

The table below shows the potential right of recoverable PIS/COFINS embedded in the lease consideration, according to the periods set for payment:

Cash flows	06/30/2024	
	Consolidated	
	Nominal	Adjusted to present value
Consideration payable	5,515,336	(2,675,599)
Potential PIS/COFINS (3.65%)	197,641	(96,242)
	5,712,977	(2,771,841)

19. Reverse factoring

Some domestic suppliers have the option to assign the Company's receivables, without recourse to financial institutions. Through these operations, suppliers can anticipate their receipts with reduced financial costs since the financial institutions consider the credit risk of the Company.

As of June 30, 2024, the balance of suppliers - reverse factoring was R\$ 527,330 (R\$ 589,280 on December 31, 2023), and the discount rates on assignment transactions carried out by our suppliers with financial institutions had a weighted average of 1.00% per month (on December 31, 2023, the weighted average was 1.05% per month) and maximum payment term of 420 days. The balance is initially recognized net of the adjustment to present value, which is subsequently recognized as a financial cost.

23. Provision for tax, civil, and labor and liabilities assumed in the business combination

The Company is involved in certain legal matters arising from the normal course of its business related to tax, civil and labor claims, in addition to contingent liabilities from business combinations.

The classification of the risk of loss is carried out in accordance with the Company's internal policy, also considering the opinion of the legal advisors. Moreover, the Company's Management understands that the provisions for tax, civil and labor risks are sufficient to cover possible losses in administrative and legal proceedings.

23.1. Balances and changes in lawsuits with expectation of probable loss

The table below shows the changes in contingencies for the period ended June 30, 2024:

	Consolidated			
	Tax	Civil	Labor	Liabilities assumed in business combinations (i)
Balance at December 31, 2023	386,129	84,955	160,219	1,002,916
Additions	4,687	29,705	26,103	-
Inflation adjustment	9,371	4,780	3,449	18,677
Reversals	(37,998)	(19,510)	(12,587)	(24,932)
Total impact on income (loss)	(23,940)	14,975	16,965	(6,255)
Payments	(242)	(25,389)	(18,335)	-
Former sponsor (with guarantee)	1,400	933	(351)	-
Balance at June 30, 2024	363,347	75,474	158,498	996,661

- (i) The amounts presented herein are related to discussions of practices adopted in companies acquired by the Company in the tax, civil and labor levels in the periods in which these companies belonged to their former owners. The reversals occurred for the period are due to statute of limitations, change in loss prognosis, or definitive closure of lawsuits. The accounting balance of this item is composed of: R\$ 978,977 from tax lawsuits, R\$ 5,598 from civil lawsuits and, R\$ 12,086 from labor lawsuits. More information is presented in item "24.2".

Reconciliation of effects impacts with Company's income (loss):

	Consolidated			
	Tax	Civil	Labor	Liabilities assumed in business combination
General and administrative expenses	32,077	(10,195)	(13,516)	11,883
Financial costs	(9,371)	(4,780)	(3,449)	(28,364)
Finance income	-	-	-	9,688
Income tax and social contribution	1,234	-	-	13,048
	23,940	(14,975)	(16,965)	6,255

23.2. Main probable lawsuits by nature

Below are the main lawsuits per nature classified as probable loss and which make up the outstanding balance on the date of the financial statements. Part of these contingencies are the responsibility of the former sponsors/owners:

Tax lawsuits

As of June 30, 2024, the Company has 9 administrative and judicial proceedings of a tax nature (9 as of December 31, 2023), and the respective amount involved is composed as follows:

- Tax Assessment Notice against the subsidiary Somos Sistemas de Ensino S.A., aiming at collection of federal taxes (IRPJ/CSLL), derived from use of goodwill related to the period from 2015 to 2017. The portion of the amount involved classified as a probable loss corresponds to R\$ 204,868 (R\$ 197,584 as of December 31, 2023);
- Tax foreclosures filed by the Municipality of São Paulo aiming at charging the ISSQN, owed by Academia Paulista Anchieta, acquired by Anhanguera Educacional Ltda. totaling R\$ 31,900 (R\$ 30,573 as of December 31, 2023). In case of an unfavorable outcome in lawsuits, the sellers of Academia Paulista Anchieta will be responsible for the debts. Furthermore, the Company has a contractual guarantee.

The Company is also a defendant in other tax lawsuits of lesser relevance, involving taxes of several natures, which total R\$ 126,579 (R\$ 157,972 as of December 31, 2023).

Civil lawsuits

For civil claims considered less relevant and similar in nature, provisions are recorded based on the historical average of lawsuits closed in the last 12 months. The lawsuits that do not fit into the previous criteria are provisioned according to the Company's internal policy, also considering the opinion of the legal advisors. The Company has, on June 30, 2024, 13,169 civil lawsuits (13,841 as of December 31, 2023) which amount to R\$ 75,474 (R\$ 84,955 as of December 31, 2023).

Labor lawsuits

The Company has, on June 30, 2024, 717 labor lawsuits (751 as of December 31, 2023) which amount to R\$ 158,498 (R\$ 160,219 as of December 31, 2023). Labor lawsuits have claims of different natures, mainly related to the payment of overtime and salary differences, and there are even disputes of employees from outsourcing companies, in which the Company's responsibility is only joint.

Liabilities assumed in business combination

The main lawsuits undertaken by the Company in a business combination, with a probable likelihood of loss, are as follows:

In thousands of reais, unless otherwise indicated

(i) Tax:

- Tax Assessment Notice against the subsidiary Somos Sistemas de Ensino S.A., aiming at collection of federal taxes (IRPJ/CSLL), derived from use of goodwill amounting to R\$ 392,031 (R\$ 380,229 as of December 31, 2023), where Somos Educação S.A. and Ativic S.A. (linked to Grupo Abril S.A.) were held jointly and severally liable; and
- 2 Tax Assessment Notices against the subsidiaries Editora Ática S.A. and Somos Idiomas S.A. aiming to collect federal taxes (IRPJ/CSLL), resulting from the use of goodwill, in the amount of R\$ 98,457 and R\$ 157,945, respectively (R\$ 96,817 and R\$ 152,626 as of December 31, 2023), with the latter Tax Assessment Notice being under responsibility of third parties, with the Company being jointly liable as a debtor);

According to the history and risk analysis of assessments drawn up due to the use of goodwill in acquisitions made by Somos, with the consequent constitution of a tax credit by the tax authorities, we considered a potential obligation resulting from past events totaling R\$ 84,222 (R\$ 113,351 as of December 31, 2023), in addition to the likelihood of questioning by the tax authorities, totaling R\$ 246,322 (R\$ 240,640 as of December 31, 2023).

(ii) Civil:

- The Company is a party to 16 civil lawsuits, considered less relevant, with an average amount of R\$ 350, which total R\$ 5,598 (R\$ 6,566 as of December 31, 2023).

(iii) Labor:

- The Company is a party to 13 labor lawsuits (16 as of December 31, 2023), considered as less relevant with an average amount of R\$ 930. Labor lawsuits have claims of different nature, mainly related to the payment of overtime and salary differences, totaling R\$ 12,086 (R\$ 12,697 as of December 31, 2023).

23.3. Lawsuits with possible losses

The table below considers all contingencies of the Company, classified as possible loss, including those that were generated in a period subsequent to the business combination:

	06/30/2024	12/31/2023	Quantity on 06/30/2024	Consolidated Quantity on 12/31/2023
Tax	1,322,085	1,370,497	387	397
Civil	344,296	268,903	828	773
Labor	227,939	180,415	500	512
Total	1,894,320	1,819,815	1,715	1,682

As of June 30, 2024, the Company and its subsidiaries had 1,715 legal and administrative proceedings whose risk is classified according to the Company's internal policy, also considering the opinion of the legal advisors, of which 136 proceedings are partially and/or fully the responsibility of former sponsors/sellers of companies acquired by the Company. Below we highlight the main ones:

25.2. Deferred income tax and social contribution

Changes in income tax and social contribution assets and liabilities are as follows:

	Individual			
	12/31/2023	Other adjustments	Effects in income (loss)	06/30/2024
<u>In the liabilities</u>				
Goodwill on business combination	(450,302)	-	12,224	(438,078)
Non-current liabilities, net	(450,302)	-	12,224	(438,078)

	Consolidated				
	12/31/2023	Other adjustments	Income (loss) from discontinued operation	Effects in income (loss)	06/30/2024
Income tax / Social contribution:					
Tax losses / negative basis of social contribution on net income	1,154,543	-	-	47,169	1,201,712
Temporary differences in taxable income					
Impairment losses on trade receivables	522,692	-	-	(7,836)	514,856
Adjustment to present value	(11,229)	-	-	27,812	16,583
Provision for tax, civil and labor losses	(210,269)	-	-	(15,365)	(225,634)
Loan depreciation and cost	18,463	-	-	(4,733)	13,730
Non-deductible provision	29,834	-	-	20,094	49,928
Stock option plan, RSU and PLR	55,327	-	-	(2,093)	53,234
Lease liabilities	82,946	-	-	(5,821)	77,125
Goodwill on business combination	(1,785,273)	(2,153)	(2,668)	(25,144)	(1,815,238)
Non-current assets (liabilities), net	(142,966)	(2,153)	(2,668)	34,083	(113,704)
Non-current assets	665,355				655,854
(-) Non-current liabilities	(808,321)				(769,558)
Total	(142,966)				(113,704)

Deferred income tax and social contribution liabilities are derived from intangible assets arising from acquisitions and deferred income tax and social contribution liabilities are derived from tax losses and balances from additions to previous and current Taxable Income prior periods.

25.3. Tax incentives

ProUni establishes through Law 11096, of January 13, 2005, an exemption from certain federal taxes to higher education institutions that grant full and partial scholarships to low-income students enrolled in traditional and technological undergraduate courses. The higher education entities controlled by the Company are included in that program.

The amount of tax benefits due to ProUni calculated in the period ended June 30, 2024, including PIS and COFINS, is R\$ 208,070 (R\$ 192,910 on June 30, 2023).

26. Shareholders' equity

26.1. Share capital

On June 30, 2024 and December 31, 2023, the subscribed and paid-up share capital of the Company totaled R\$ 7,667,615, corresponding to 1,876,606,210 nominative common shares. We present its respective distribution:

	06/30/2024		12/31/2023	
	Amount	Quantity	Amount	Quantity
Total shares - ex-treasury	7,658,634	1,871,663,358	7,655,461	1,871,956,123
Total treasury shares	8,981	4,942,852	12,154	4,650,087
Total shares	7,667,615	1,876,606,210	7,667,615	1,876,606,210

In addition, we present below the changes in treasury shares:

	06/30/2024		12/31/2023	
	Amount	Quantity	Amount	Quantity
Opening balance	12,154	4,650,087	8,257	1,913,841
Repurchase of treasury shares	6,517	4,000,000	15,467	7,045,600
Disposal of shares	(9,690)	(3,707,235)	(11,570)	(4,309,354)
Closing balance	8,981	4,942,852	12,154	4,650,087

The Share Buyback Program was approved during the Board of Directors' Meeting held on June 14, 2024 and aims at: (i) fulfilling the exercise of Stock Options resulting from the Stock Option Plan (Performance Shares), with the repurchased Shares being held in treasury, sold or canceled, without reducing the Company's share capital; (ii) generating value for shareholders through efficient management of the Company's capital structure; (iii) maximizing the return of shareholders, considering that, in the Company's view, the current value of its shares does not reflect the true value of its assets, coupled with the prospect of profitability and generation of future income; (iv) maintenance of Treasury shares; and/or (v) public or private disposal of Shares, pursuant to applicable regulations.

The maximum term for the trading of the Company's own issued shares will be twelve (12) months, starting on June 17, 2024 and ending on June 17, 2025.

26.2. Capital reserve and granted options

The Company grants share-based compensation plans to the Group's executives and employees and considered the recognition of the amounts calculated as of the date that they started to dedicate themselves to the Group's operations. Further details are presented in Note 28.

Equity instruments from business combination

Balance constituted due to the acquisitions of Unopar and Anhanguera, resulting from the operations described below:

Unopar: On December 15, 2011, 20% of the acquisition payment (equivalent to R\$ 260,000) was made through shares issued by the Company and corresponded to 13,877,460 common shares and 83,264,760 preferred shares, which were issued on September 28, 2012, net of (R\$ 16,127) referring to the book value of the holding companies that hold a 20% stake of Unopar's share capital; and

COGNA EDUCAÇÃO S.A. AND SUBSIDIARIES

NOTES TO THE INTERIM FINANCIAL INFORMATION

Period ended June 30, 2024 and 2023

In thousands of reais, unless otherwise indicated

Anhanguera: On July 03, 2014, due to the merger of Anhanguera's shares, 135,362,103 common shares of the Company were issued. The difference between the total amount of the acquisition and the amount attributed to the share capital and option plan formed in this merger totaled R\$ 5,908,314 and was recorded as a capital reserve "Equity instruments arising from the business combination".

The Company partially consumed the balances of this item with the absorption of losses for the years in the total amount of (R\$ 492,879) on December 31, 2023 and (R\$ 528,930) on December 31, 2022, in addition to (R\$ 1,852,979) considering the years 2020 and 2021.

Equity gain on issuance of subsidiary's shares

On July 30, 2020, the subsidiary Vasta Platform Ltda. ("Vasta") carried out the initial public offering of the business. Vasta's class A shares began to be traded on NASDAQ on July 31, 2020, and were settled on August 04, 2020. The reflections of the costs of this issue were recorded by the Company against Capital Reserve, totaling (R\$ 109,677). During FY 2022, 256,036 new class "A" shares were issued for the exercise of LTI, which required the recording of a net equity adjustment of R\$ 711,794 reflecting the equity appreciation that occurred at Vasta. In the years 2021 and 2023, there was a record of impacts of (R\$ 18,536), (R\$ 30,747) and (R\$ 17,349), respectively, from the class "A" share buyback program carried out by the Subsidiary Vasta Platform Ltda.

The other changes add up to R\$ 186,056, consisting of reserves from grants, gain or loss of treasury shares, among others. Capital reserves are consumed by accumulated losses. And these are the main changes, the balance of all capital reserve accounts for the period ended June 30, 2024, is R\$ 3,998,940 (R\$ 4,009,933 as of December 31, 2023).

26.3. Non-controlling interest

Because of the IPO of the direct subsidiary Vasta Platform Ltda. ("Vasta") in July 2020, the Company reduced its interest in the shareholders' equity from 100% to 77.62%.

In the year ended December 31, 2022, there was a reduction in this percentage, from 77.62%, to 77%, due to the settlement of tranches of the share-based compensation plan (RSU-Vasta), implying in the issuance of Vasta shares for delivery to the beneficiaries who, therefore, became minority shareholders. Such event resulted in the loss of interest in the amount of R\$ 28,523, recognized under non-controlling interests in shareholders' equity, with a contra entry to capital reserves in Cogna.

Based on this information, the amount related to the control of non-controlling shareholders as of June 30, 2024 totaled R\$ 1,026,197 (R\$ 1,040,885 as of December 31, 2023).

27. Share-based compensation plans

27.1. Performance Shares Plan – PSU

27.1.1. 2021 PSU plan

On April 28, 2021, the Extraordinary General Meeting approved the creation of the Stock Option Plan (“2021 Performance Shares Plan”), and the consequent granting of authorization to the Board of Directors and the People and Governance Committee of the Company for them to adopt all the necessary measures for its implementation and execution.

Options, including those arising from migration, may be granted up to a maximum limit of 2% of the Company’s total share capital on the date of approval of this Plan. If any Option is terminated or canceled and was not fully exercised, Shares linked to such Options will again be available for future granting of Options.

The purpose of the Plan is to allow Grantees to receive Options that will give them the right, subject to certain performance conditions, to acquire and subscribe Shares with a view to: (a) stimulate the expansion, success, and achievement of the Company’s social objectives and results, aligning the financial benefit to be obtained by the Grantee regarding the Annual Targets as applicable; (b) align the interests of the Grantees to the Company’s shareholders; (c) enable the Company to maintain the beneficiaries of the Plan linked to it or to the Subsidiaries, Grantees; and (d) encourage the creation of long-term value to the Company.

The managers and employees of the Company or its Subsidiaries who are considered key executives may be elected as grantees, being subject to the approval by the Committee.

The fair value of options granted is measured at the market price of the Company’s shares on the grant date and the Strike Price of the Options granted will be R\$ 0.01 per Share. All the Options Granted in each contract are segregated in a period of four (4) years, being granted 25% per annum of the total Options, with a grace period of twelve (12) months in relation to each grant.

The Company may issue new shares within the authorized capital limit or sell treasury shares to fulfill the exercise of the options granted.

27.1.2. 2023 PSU plan

On April 28, 2023, the Extraordinary General Meeting approved the creation of a new Stock Option Plan (“2023 Performance Shares Plan”), which aims to allow the managers and/or employees of the Company or its subsidiaries elected by the Board of Directors or by the Personnel and ESG Committee to receive options to purchase shares issued by the Company that will give them the right to acquire or subscribe for common, registered, book-entry shares with no par value.

The options granted will be of two different types: “Extraordinary Bonus Options” and “Performance Options”, which differ by (i) the respective grace periods, (ii) by the Grantees who will be beneficiaries and (iii) by the possibility of adjusting the number of options that may actually be exercised by the Grantee based on the Company’s financial performance, verifying the degree of achievement of certain annual financial targets, to be defined by the Board of Directors, based on the Company’s Recurring EBITDA and Operating Cash Generation (OCG) for each of the years 2025, 2026 and 2027.

COGNA EDUCAÇÃO S.A. AND SUBSIDIARIES

NOTES TO THE INTERIM FINANCIAL INFORMATION

Period ended June 30, 2024 and 2023

In thousands of reais, unless otherwise indicated

The Options granted under the terms of the Plan will grant rights to acquire or subscribe to, and receive, Shares in a total amount corresponding to up to 2% of the Company's total share capital on the date of approval of this Plan (maximum dilution limit of the share capital as a result of the Plan), already considering the maximum increase in the number of Options resulting from the achievement of the multiplication factors provided for in the Annual Financial Targets Clause. The total number of Shares issued or likely to be issued pursuant to the Plan must always follow the Company's authorized capital limit. If any Option is terminated or canceled and was not fully exercised, Shares linked to such Options will again be available for future granting of Options.

Below is a representation of the transactions carried out in the period ended June 30, 2024:

Grants	12/31/2023	Options granted	Options cancelled	Options settled	06/30/2024
Contracts migrated from 2021 RSU to PSU (i)	513,361	-	(14,944)	(116,347)	382,070
2021 PSU Grants	13,595,298	2,688,981	(270,000)	(1,985,794)	14,028,485
2023 PSU Grants	22,914,915	2,093,105	(1,650,000)	-	23,358,020
Total	37,023,574	4,782,086	-1,934,944	-2,102,141	37,768,575

- (i) The contracts in force on 04/30/2021 of the Cogna 2018 Restricted Shares Plan (RSU) of beneficiaries allocated in the business areas named Cogna, Platos or Kroton were partially migrated to the new Performance Shares Plan (PSU). The number of shares canceled in RSU and granted in PSU was calculated based on the remaining vesting period of each contract on the migration date of 05/01/2021.

The Company recognized expenses related to the granting of the Performance Share Plans (PSU2021 and PSU2023) totaling R\$ 16,372 in the period ended June 30, 2024 as a contra entry to capital reserves under shareholders' equity (R\$ 9,982 as of June 30, 2023). Furthermore, the amount of (R\$ 2,891) in the period ended June 30, 2024 (R\$ 8,552 as of June 30, 2023) was recognized as personnel expenses with charges, net of restatement at the share price on the closing date of the period.

27.2. Restricted stock option plans - VASTA

On July 31, 2020, Cogna Educação S.A., the sole shareholder of Vasta Platform Limited at the time, approved the creation of the Restricted Stock Plan of its subsidiary Vasta to increase the involvement of eligible beneficiaries in the creation of value and profitability of the subsidiary, as well as encouraging them to make significant contributions to the long-term performance and growth of Vasta Platform Limited.

Rights were granted to employees and executives to receive Vasta Platform's Class A shares limited to 3% of the total shares of Vasta, which correspond to 2,490,348 shares.

Vasta has granted restricted stock award contracts to the beneficiary allocated in up to five different annual tranches, the acquisition of which will be subject to the continued employment of the beneficiary in the Company or to an applicable member of the Company's Group. Each tranche will be settled according to the vesting schedule defined by the Board of Directors in the contracts awarded.

COGNA EDUCAÇÃO S.A. AND SUBSIDIARIES**NOTES TO THE INTERIM FINANCIAL INFORMATION**

Period ended June 30, 2024 and 2023

In thousands of reais, unless otherwise indicated

The fair value of the restricted shares granted is measured at the market price of subsidiary Vasta's shares on the grant date and the restricted shares will be granted on a non-interest-bearing basis to the participants, through the transfer of shares held in treasury or upon the issuance of new shares.

Below is a representation of the transactions carried out in the period ended June 30, 2024:

PLANS	Number of restricted shares				06/30/2024
	12/31/2023	Restricted shares granted	Restricted shares canceled	Restricted shares settled	
Vasta Plan	603,801	-	(31,880)	(31,990)	539,931
Total	603,801	-	(31,880)	(31,990)	539,931

In the period ended June 30, 2024, the Company recognized R\$ 3,619 related to expenses with grants under the Vasta's Restricted Stock Plan (R\$ 8,961 as of June 30, 2023). Additionally, (R\$ 553) was recognized as personnel expenses with charges and the updating of the accumulated balances of charges by the closing price of Vasta's share with a balancing entry in the provision for charges in Liabilities (R\$ 1,278 as of June 30, 2023), net of restatement for the closing price of Vasta's share.

27.3. 2023 Vasta PSU Plan

At a meeting of the Board of Directors of Vasta Platform Limited, held on August 09, 2023, a new long-term incentive (LTI) plan was approved based on the model of the "2023 Performance Shares Plan" adopted by Cogna, with granting in 2023 and vestings in 2026, 2027, and 2028, and dilution of 1.75% in Vasta shares.

PLANS	Quantity of options				06/30/2024
	12/31/2023	Options granted	Options cancelled	Options settled	
2023 Vasta PSU Plan	991,052	24,998	-	(162,254)	853,796
Total	991,052	24,998	-	(162,254)	853,796

The Company recognized R\$ 2,184 related to expenses with grants under the 2023 PSU Vasta Plan as of June 30, 2024 (R\$ 0 as of June 30, 2023). In addition, R\$ 721 was recognized as personnel expenses with charges and the updating of the accumulated balances of charges by the closing price of Vasta's share, with a balancing entry in the provision for charges in Liabilities as of June 30, 2024 (R\$ 0 as of June 30, 2023).

Period ended June 30, 2024 and 2023

In thousands of reais, unless otherwise indicated

- (i) Refers to balances receivable from the apportionment of corporate expenses carried out between Cogna Group's companies, charged via debit note. The amount recognized in income (loss) related to this operation as of June 30, 2024 was R\$ 11,259 of revenue (R\$ 15,895 as of June 30, 2023).
- (ii) Amounts receivable from the guarantee contract between Cogna and Saber signed on December 31, 2019 total R\$ 149,600, updated by the IPCA rate, with an updated balance of R\$ 194,779 (R\$ 189,397 as of December 31, 2023), relating to contingent liabilities assumed by the corporate reorganization;
- (iii) In order to better allocate capital among the Group's subsidiaries, the Company made cash transfers to its subsidiaries against capital increases or loan agreements, depending on an analysis by each company. For this purpose, loan agreements maturing in December 2025 were entered into considering the compensation of CDI+3.57% p.a. Tax on Financial Transactions (IOF) is not levied on these operations, because of Decree 10.504/2020, approved by the Government, which defined a zero rate for the tax on credit operations. The balances receivable per subsidiary are shown below:

Subsidiary				Individual
	12/31/2023	Interest	Amortization	06/30/2024

COGNA EDUCAÇÃO S.A. AND SUBSIDIARIES

NOTES TO THE INTERIM FINANCIAL INFORMATION

Period ended June 30, 2024 and 2023

In thousands of reais, unless otherwise indicated

32. Loss per share

32.1. Basic

The basic loss per share is calculated by dividing the result attributable to the holders of common shares of the Company by the weighted average number of common shares held by shareholders (excluding those held in treasury) during the period.

	Loss for the period	
	06/30/2024	06/30/2023
Loss attributable to Company's shareholders	(38,008)	(10,991)
Weighted average number of outstanding common shares	1,873,067	1,872,401
Basic losses per common share	(0.02)	(0.01)

32.2. Diluted

For dilution purposes, the Company has a stock option plan granted to the beneficiaries, whereby the issue of shares is allowed at the time of the option period. On June 30, 2024 and 2023, there was no dilution effect as it was a loss per share.

33. Segment reporting

The company manages its activities in three main operating business segments, to differentiate its offered products. As of June 30, 2024, because of the treatment given to the result of discontinued operations, related to the SETS's operation, the balances for the comparison of 2023 are being restated, as presented in note 3. Thus, we present below the results of these segmentations for the period ended June 30, 2024 and 2023 previously disclosed:

					06/30/2024

Performance report

ABOUT COGNA EDUCAÇÃO

Cogna Educação is one of the largest private educational organizations in the world. In the market for more than 55 years, the Company operates in all Brazilian states and different education segments, with a full platform of services and content offered in different business models. At the end of 2Q24, Cognia had 1,138 thousand On-Campus and Digital Higher Education students in Kroton segment and more than 85 thousand Post-graduate students in the Platos segment. In Basic Education, Vasta ended the quarter with 1,915 thousand students provided by approximately 6.4 thousand member schools, using core and complementary content solutions.

NOTE

The Company's operating and financial information for the first semester of 2024, unless otherwise indicated, is presented based on consolidated figures, including continued and discontinued operations, in thousands of reais, in accordance with the Brazilian corporate law and practices adopted in Brazil, already in compliance with the International Financial Reporting Standards (IFRS), whose comparisons are based on the same period in 2023. With the aim of aiding users in reading this information, below is the combined result of the continued and discontinued operation:

MESSAGE FROM MANAGEMENT

Cogna:

The quarterly results show the importance of Cognia's portfolio diversification.

Cogna continues on the right track to deliver the 2024 guidance, with another quarter of revenue growth, despite the negative seasonality of the National Book and Textbook Program (PNLD), and, above all, with efficiency gains and, therefore, better profitability.

In the second quarter of the year, Cognia's total revenue increased 4.9%, driven by the growth of Kroton and Somos, more than offsetting the 10.3% decrease in Saber's revenue, due to the seasonality of the National Book and Textbook Program (PNLD).

We enter the second semester of 2024 confident that the seasonality of the second half of the year, especially in the fourth quarter, with more revenue from Somos given the start of the 2025 intake cycle, and from Saber, due to the billing of NBTP, will bring the necessary growth in the operating result and cash flow to achieve our targets for the year. Thus, we remain confident in achieving the guidance for 2024.

Growth: increasing intake in Kroton and expansion in Vasta's subscription revenue

In Kroton, the ability to obtain increasing intake revenue, as well as the improvement in reenrollment, due to greater academic engagement and financial quality of the student base, had a positive effect on Net Revenue, which grew 4.9% in 2Q24 and 8.2% in the semester.

In Vasta, Net Revenue grew 8.5% in the quarter, even without a new B2B contract, but driven by a 32.5% increase in Subscription Revenues. In the cycle-to-date of 2024, Net Revenue grew 11.0% compared to the same period of the previous year, driven by a 13.8% growth in Subscription Revenues, both in Core Solutions and Complementary Solutions.

At Saber, Net Revenue decreased 16.5% in 2Q24 vs 2Q23, due to the seasonality of the National Book and Textbook Program (PNLD), reaching R\$ 73.2 million. In the semester, Net Revenue grew 21.5% and reached R\$ 266.3 million.

Experience: ongoing evolution in the experience of our students and clients

At Kroton, our relentless work in delivering the best experience for the student is reflected in the growth of our students' recommendation, with a 6-point increase in the NPS of the DL modality in the first semester of 2024 compared to the same period of the previous year and a 15-point improvement in the NPS of the On Campus modality in the same period.

The student's experience continues to be our obsession, as we understand that delivering a service with the least amount of friction and inconvenience possible is fundamental to maintain our position as the most efficient company in the sector, enabling offers at extremely affordable prices. We have launched a new system for the distance learning education modality that integrates our systems and allows data and processes to be accessed even faster and more reliably for our students. The Transformation Program (PTC) includes seven projects focused on improving key student journeys at the institution: admission, academic, administrative and financial. PTC is an evolutionary program that will bring even more efficiency, innovation, growth and the best experience to our students.

In the last 12 months, we have reached the mark of 91% of evaluations of active courses with an excellent rating (grades 4 or 5). For DL courses, the concepts of excellence reached 97% of MEC visits.

The result of these actions is market recognition: In 2024, we won the Gold award in Customer Services, Back Office, and Hyper Automation from Cliente SA and we are among the Best Companies in Customer Satisfaction for MESC Google (Best Customer Satisfaction Companies). MESC is a startup recently acquired by Google, which uses Google Opinion as its base. This is a fully independent award, based on the opinion of users who leave reviews on the internet/Google, and then audits the winner through a "Mystery Client" methodology (or "Mystery Student", in our case).

People and Culture: diversity and focus on retaining our talent.

In 2024, Cogna received the Great Place to Work seal for the 3rd consecutive year. This certification is extremely relevant in attracting and retaining talent, being widely recognized in the market for giving the company the reputation of an excellent employer.

This quarter, we concluded the first Trainee program for Black Women, which started in January 2023. The program aimed to develop skills and competencies to accelerate the readiness of these women to hold relevant positions in the company. For 18 months, the trainees were involved in high-impact projects in strategic areas, participating in over 40 hours of training and holding meetings with experts from Cogna and its partner Indique uma Preta, which also promoted training for leaders. In July 2024, the employees took on strategic positions with the purpose of leveraging the business. The program reinforces our purpose of driving people's development and our public commitment to gender equity in leadership positions.

In July, the Institutional Investor Magazine ranking, prepared annually through a market research, was disclosed. We achieved second place in the IR Professional category and first place in the IR Team category, according to the Sell-Side perspective. This recognition reflects our ongoing commitment to transparency and quality in our relationship with our investors.

In recent years, our company has been committed to transforming its organizational culture, adopting a approach centered on a partner mindset and the delivery of concrete results. Such cultural change has been a fundamental pillar in our path to success and sustainable growth.

Innovation: external recognition of consistency and traction in the innovation journey

In recent years, Cogna has undergone a significant transformation, driven by the implementation of new technologies and the strategic use of artificial intelligence. This progress has been fundamental to improve our processes and increase operational efficiency.

By applying these advanced tools, we can automate processes, reduce costs and improve decision-making. We will continue investing in technology and artificial intelligence to ensure that our company remains at the market forefront, always seeking ways to add value and exceed the expectations of our students and clients.

In August 2024, as external recognition of the consistency and traction in the company's innovation journey, Cogna was recognized as the most innovative company in the Education Sector by the VALOR 2024 award, holding the 27th position in the overall ranking of the most innovative companies in the country. This award reinforces that we are on the right track, focusing on the CVB - Corporate Venture Building and OPEN INNOVATION fronts.

OPERATING PERFORMANCE

KROTON

Students base and movement: Undergraduate

	Total			On-Site			Kroton Med			DL		
	1H24	1H23	Chg.%	1H24	1H23	Chg.%	1H24	1H23	Chg.%	1H24	1H23	Chg.%
Initial Base	954,133	896,495	6.4%	140,038	154,650	(9.4%)	33,461	29,621	13.0%	780,634	712,224	9.6%
<i>Graduations</i>	(117,713)	(120,008)	(1.9%)	(19,852)	(23,881)	(16.9%)	(3,182)	(3,081)	3.3%	(94,679)	(93,046)	1.8%
Intake	529,267	469,832	12.7%	52,093	47,611	9.4%	13,561	12,068	12.4%	463,613	410,153	13.0%
<i>Dropout and Non-Renewal</i>	(227,470)	(263,336)	(13.6%)	(18,188)	(23,323)	(22.0%)	(5,478)	(4,200)	30.4%	(203,804)	(235,813)	(13.6%)
Final Base	1,138,217	982,983	15.8%	154,091	155,057	(0.6%)	38,362	34,408	11.5%	945,764	793,518	19.2%

The total student base of Kroton recorded a significant growth of 15.8% in the first semester of 2024, reaching 1.1 million students. This growth is the result of the strong intake in all modalities, +9.4% in On Campus, +12.4% in Kroton Med, and +13.0% in Distance Learning, as well as the reduction in the dropout rate and non-renewal, -4.2 p.p. in DL and -1.7 p.p. in On Campus, strengthening the growth of the harvest.

We had a 21.5% increase in Intake Revenue in the semester compared to the same period in 2023, due to the increase in the number of student intake.

Average Ticket

	Total			On-Site			Kroton MED			DL		
	1H24	1H23	Chg.%	1H24	1H23	Chg.%	1H24	1H23	Chg.%	1H24	1H23	Chg.%
Average Ticket	362	381	(4.8%)	810	829	(2.3%)	1,966	1,983	(0.9%)	238	241	(0.9%)

In the first semester of 2024, the average ticket of the students decreased 4.8% compared to the same period of the previous year. Such impact occurs mainly due to two factors: 1) greater mix of freshmen in the total base, due to the strong student intake, with a higher concentration of distance learning education students, who have a lower average ticket; 2) improvement in the freshmen dropout rate, pulling down the average ticket price as the seniors have a higher ticket price since they have already experienced price adjustments linked to the inflation for the period.

Students base and movement: Graduate

	Graduate		
	1H24	1H23	Chg.%
Initial Base	71,510	67,405	6.1%
<i>Graduations</i>	(53,270)	(57,509)	-7.4%
Intake	70,721	60,572	16.8%
<i>Dropout</i>	(3,822)	(2,237)	70.9%
Final Base	85,139	68,231	24.8%

The graduate student base grew 24.8% in the first semester of 2024 compared to the same period of 2023, reflecting the strength of the course portfolio, the high NPS of students, and the strength of our distribution channels. With such growth, we ended the quarter with 85.1 thousand graduate students.

Net income

In the second quarter of 2024, Kroton Consolidated's Net Revenue grew 4.9% compared to 2Q23, reaching R\$ 1,087.7 million, due to increasing volumes in recent student intake and improvement in dropout rates during the period. The growth of Net Revenue was 8.2% higher in the semester, totaling R\$ 1,994.8 million.

VASTA

The second quarter of 2024 corresponds to the third quarter of 2024 intake cycle for Vasta. The results achieved during this period show that the business unit continues to grow, according to the company's expectations.

	2024	2023	Chg.%
Partner Schools			
Partner Schools - Core Content	4,744	5,032	-5.7%
Partner Schools – Complementary Solutions	1,722	1,383	24.5%
Students			
Students - Core Content	1,432,289	1,539,024	-6.9%
Students - Complementary Content	483,132	453,552	6.5%

In the 2024 sales cycle, Vasta expects to provide core content solutions to approximately 1.4 million students and complementary solutions to around 500,000 students. This is aligned with the company's strategy to focus on improving its customer base in 2024 through a better mix of schools and growth in premium learning systems (Anglo, PH, Amplia, and Fibonacci), brands with higher average ticket, lower default rate, greater adoption of complementary solutions, and long-term relationships. On the other hand, the decrease of our customer base focused on the network segment, which has a higher average number of students and lower margin. As contracts with schools are always signed in the first and fourth quarters, the operational data of partner schools and the number of students for this quarter are equivalent to those of the first quarter.

In our new growth avenue Start-Anglo, we signed 10 new contracts in 2Q24, totaling 30 contracts distributed in 11 Brazilian states, thus highlighting the great potential for growth and market penetration of Start-Anglo.

Net revenue

Vasta - Values in R\$ ('000)	2Q24	2Q23	Chg.%	Cycle 2024	Cycle 2023	Chg.%
Net Revenue	294,352	271,393	8.5%	1,309,176	1,179,249	11.0%
Subscription	279,759	211,150	32.5%	1,152,005	1,012,313	13.8%
Core Content	275,816	206,671	33.5%	967,819	858,750	12.7%
Complementary Solutions	3,943	4,479	-12.0%	184,186	153,563	19.9%
No - Subscription	14,593	19,790	-26.3%	88,140	126,483	-30.3%
B2G	-	40,453	-100.0%	69,031	40,453	70.6%

In the second quarter of 2024, Vasta's Net Revenue reached R\$ 294.4 million, accounting for a growth of 8.5% compared to the same period in 2023, mainly due to the 33.5% increase in Core Content, given the different seasonality of the new contracts, where part of the product delivery was migrated to the third quarter of the intake cycle.

In the 2024 cycle, the Net Revenue reached R\$ 1,309.2 million, driven mainly by the growth in sales to the Government (B2G), with an increase of 71.6%, and the growth in sales of complementary solutions of 19.9%.

The subscription revenue has already reached 85.3% of the accumulated Annual Contract Value (ACV) guidance in the 2024 sales cycle, accounting for an increase of 1.4p.p compared to the same previous period, which was 83.9% of the ACV.

SABER

Student Base

Student Base	2Q24	2Q23	% Y/Y
Red Balloon Schools and Franchisees	128	115	11.3%
Red Balloon Students	34,263	28,618	19.7%

The number of Red Balloon units, including franchises and partner schools, increased 11.3% between 2Q24 and 2Q23, which represents the opening of 13 new units. The growth of units, as well as the evolution of our marketing and sales skills, allowed us to grow an impressive 19.7% in our student base during the year.

Net revenue

Saber Revenues - Values in R\$ ('000)	2Q24	2Q23	Chg.%	1H24	1H23	Chg.%
Net Revenue	73,204	87,678	-16.5%	266,336	219,214	21.5%
Net Revenue from PNLD	23,900	33,209	-28.0%	96,187	79,727	20.6%
Books Sold - Postsecondary	10,143	17,338	-41.5%	31,646	43,201	-26.7%
Net Revenue - Languages	12,633	15,341	-17.7%	52,841	49,491	6.8%
Net Revenue - Other Services	26,528	21,789	21.7%	85,661	46,795	83.1%

In the second quarter of 2024, Net Revenue from Saber decreased 16.5%, reaching R\$ 73.2 million. This result is due to the advance of part of the expected revenue from NBTP compared to the same period of the previous year, partially offset by the growth in sales of the Acerta Brasil program, which assesses and enhances the learning and progression of students in public schools.

Considering only the continued operations, Net Revenue in the quarter reached R\$ 63.0 million, with R\$ 10.2 million linked to the sales operations of higher education books (SETs), which were sold in May 2024, representing a 10.3% decrease in the second quarter of 2024 compared to the same period of the previous year.

FINANCIAL PERFORMANCE

The following information refers to continued operations:

Net Revenue

In the second quarter of 2024, Net Revenue reached R\$ 1,431.6 million, a 4.6% growth versus the same period of 2023. In the semester, accumulated growth was 10.3%, totaling R\$ 2,948.4 million.

Costs

The costs of products and services reached R\$ 938.7 million in the first semester of 2024, which is equivalent to 31.8% of net revenue for the period, thus reducing this percentage by 4.4% compared to the same period of the previous year due to the increase in the share of revenue from digital courses in Net Revenue (which does not generate additional costs).

Gross Profit

Gross profit in the first semester of 2024 reached R\$ 2,009.8 million, with a gross margin of 68.2%, a 4.4% increase compared to same period of previous year.

Operating Expenses

Operating expenses reached R\$ 1,558.9 million in the first semester of 2024, representing 52.9% of net revenue for the period against 48.9% of net revenue in the same period of 2023. Operating expenses are broken down into three broad lines:

- General and administrative expenses: operating expenses include general and administrative expenses and expenses with administrative personnel, consultancies, travel and outsourced services, among others. In the semester, these expenses totaled R\$ 913.1 million or 31.0% of net revenue, an increase of 4.3 p.p. compared to the same period of previous year.
- Sales expenses: sales expenses includes expenses related to the sales, advertising and marketing team and copyright. In the semester, these expenses reached R\$ 410.3 million, corresponding to 13.9% of net revenue, a 2.4 p.p. increase compared to the same period of previous year.
- Allowance for doubtful accounts (PCLD): the group of expenses with Allowance for Doubtful Accounts (ADA) in the semester totaled R\$ 233.2 million, 7.9% of net revenue, a reduction of 0.3 p.p. compared to the same period of 2023, due to the continued improvement in the delinquency at Kroton.

Furthermore, other operating revenues/expenses and equity income amounted to R\$ 2.4 million in the first semester of 2024, or 0.1% of net revenue, compared to R\$ 67.6 million in the same period of 2023, mainly composed of the price adjustment in accounts payable for the acquisition of R\$ 59.4 million.

Financial Result

In the first semester of 2024, the Financial Result was negative at R\$ 497.0 million, representing 16.9% of net revenue for the period, an increase of 0.8% compared to the same period of 2023, with financial costs decreasing 2.9% in year over year and reaching R\$ 643.5 million in the semester and finance income decreasing 3.7% in year over year, reaching R\$ 146.5 million in the semester.

Income tax and social contribution

Income Tax and Social Contribution totaled positive R\$ 22.1 million in the first semester of 2024 and accounted for 0.8% of net revenue.

Net income (loss)

The accumulated Net Loss in the first semester of 2024 was R\$ 27.3 million, accounting for 0.9% of the Net Revenue for the period, compared to a Net Loss of R\$ 11.0 million in the same period of 2023, with a decrease in the net margin of 0.5% between 2Q23 and 2Q24. This decrease between the representativeness of semesters is the result of the combination of: (i) increase in general and administrative expenses of 4.3%, mainly due to the decrease in credit for reversals of contingencies linked to the prescription of the opening balance and; (ii) increase in sales expenses of 2.4%, due to the marketing strategy.

Net Indebtedness

The company's net debt decreased 1.2% in the first semester of 2024 compared to the same period of the previous year, from R\$ 3,362.7 million to R\$ 3,323.5 million, mainly due to the payment of interest and M&A obligations. At the end of the semester, the total of cash and cash equivalents totaled R\$ 934.7 million, a value 41.4% lower compared to the first semester of 2023 due to the use of cash for debt prepayment.

The Company obtained a leverage (Net Debt/Adjusted EBITDA) of 1.79x at the end of 2Q24, in line with 1Q24. This level of leverage is calculated in accordance with the company's debenture regulations, in which: (i) Net debt considers the sum of loans and financing and accounts payable for acquisitions, less cash and cash equivalents position and; (ii) Adjusted EBITDA considers, in addition to EBITDA, Non-recurring items and the sum of the balance between provisions and contingency reversals with no cash effect.

RATINGS

Cogna is currently rated as brAA+ by Standard & Poor's and AA+(bra) by Fitch Rating.

1. DISCLOSURE OF EBITDA

According to CVM Instruction 527/12, the Company adhered to the disclosure of the non-accounting information as additional aggregate information in its Financial Statements, presenting the EBITDA – Earnings Before Interest, Taxes on Income including Social Contribution on Profit (Loss) Net, Depreciation and Amortization, for the year ended June 30, 2024 and 2023, included in the result of continued and discontinued operations.

In general terms, EBITDA represents the Company's operating cash generation, corresponding to the fact that the Company generates resources only in its operating activities, without considering the financial and tax effects. It should be noted that this does not represent cash flow for the period presented and should not be considered obligatorily as a basis for dividend distribution, alternative to net income, or still as an indicator of liquidity.

	Consolidated	
	06/30/2024	06/30/2023
Loss for the period	(27,300)	(10,991)
